Journal - Office of Legislative Counsel  
Thursday - 26 October 1967

Page 2

4. (Internal Use Only - JGO) Met with Mr. Frank McNamara, Director, House Un-American Activities Committee, in response to a request from him concerning persons in attendance at a recent conference in Bratislava relating to peace marches. I advised Mr. McNamara that although the meeting was fairly overt, we do not report on activities of Americans. I advised that such information would be within the province of the Department of State.

5. (Internal Use Only - JGO) In the absence of Representative Bob Casey (D., Texas) from the office, I met with Mr. Charles A. Frandolig, Mr. Casey's Administrative Assistant, in response to the Representative's request for information concerning allegations by the District Attorney in New Orleans that the CIA has paid for the attorneys of the defendants in his inquiry. Mr. Frandolig readily understood the Agency's position concerning response to matters appearing in the press. He stated his appreciation for the off-the-record advice for Mr. Casey that such allegations are without foundation, and advised their office would be able to handle the present constituent correspondence without further action by the Agency. Mr. Frandolig noted in passing, that Mr. Casey has interested himself in the Philby case and that he might be calling me later with regard to it. He provided no specifications other than that the apparent ramifications of this case have concerned Mr. Casey.

6. (Secret - JGO) Met with Mr. Charles Johnson, Staff Director, House Post Office and Civil Service Committee, and discussed several topics with him of prime importance. There is no present intention in the Committee to schedule any further business. Consideration of S. 1035 by the Committee will go over to next year. There is no present determination for scheduling of S. 1035 hearings. It was indicated that there has been correspondence between Senator Ervin and Representative Henderson, Chairmen of the Subcommittees with regard to S. 1035, and that in general, the Chairman of the Senate Subcommittee was advised that hearings probably would not be scheduled on an early date.
